

THOR Tarp

DIV. OF

ODIN

INTERNATIONAL, INC

FEATURES OF OUR RACK SYSTEM

1. Available in 4, 5, 6, 7, 8, 9, 10, 11, and 12 roll capacity.
2. Adjustable brackets allow for larger/smaller diameter sections.
Add brackets and tubes depending on need.
3. Cotter pin to keep rolls from unrolling. PVC clamps to attach cover to roller.
4. 2.375" diameter rollers with a weight capacity of 400 lbs. per roll.
5. 4 non-marring casters, 2 of which are locking.
6 casters available upon request.
6. 2" x 2" x ¼" angle iron construction. No plastic structural components.
7. 34" wide at base to fit through standard doorway of 36".
(11'1" long x 6' high)
8. Double handle manual aluminum hand crank included.
9. Black powder coated finish.
10. Optional power rewind system available.

FOR PROPER WEIGHT DISTRIBUTION AND SAFETY when loading/unloading the rack, evenly distribute the weight of rolled gym floor covers. Load from the bottom up alternately from side to side and front to back. Unload the rack following the same procedure in reverse top to bottom.
